Experience

Accenture | Frontend Developer

January 2025

- Co-led a team of six as Project Manager & Engineer to develop a career exploration website for school leavers in five days, competing against four other teams, and won the competition.
- Implemented a project management system on Notion, improving team coordination and task tracking by assigning responsibilities and monitoring progress.
- Developed the resource page and contact form, contributing to a multi-page website that included career pathways, FAQs, and upskilling resources.
- Applied Agile methodologies, UX/UI principles, and design thinking to enhance user experience and project workflow.
- Delivered a final pitch presentation, integrating insights from sessions on confidence, resilience, and personal branding to effectively communicate the project's impact.

Barclays | Developer (Virtual, Springpod)

October 2024

- Designed and implemented a database for a To-Do List app, featuring two interconnected tables: users and tasks.
- Conducted research to determine the optimal database type, evaluating relational, NoSQL, and in-memory solutions, and justified the selection of MySQL based on scalability and performance.

Private Tutor & Content Creator

August 2024 - December 2024

- Structured and delivered A-Level content and revision strategies using digital tools like PowerPoint and Notion, ensuring clarity and engagement.
- Provided targeted tutoring to improve students' academic performance, achieving measurable improvements in GCSE and A-Level results.
- Created TikTok videos on study strategies and exam tips, growing a following of 700+ and generating 19K+ likes in three months by leveraging analytics to optimise content reach.

HSBC | LIFT OFF & LIFT

July 2023 - July 2024

- Gained in-depth exposure to the Global Banking & Markets division, developing an understanding of global economic trends and industry-specific operations.
- Co-led a team presentation on ESG in Technology, demonstrating collaboration, research, and communication skills to an audience of students and professionals.

Extracurriculars & Achievements

Responsive Web Design Certification | freeCodeCamp

November 2024 - Present

- Gaining hands-on experience mastering HTML and CSS to create responsive and user-focused websites through project-based learning.
- Building various web applications, including a tribute page, interactive forms, and a photo gallery, incorporating animations, while adhering to SEO best practices and ensuring accessibility compliance.

Python AI Developer Program | Mimo.org

August 2024 - October 2024

- Developed strong foundational skills in Python, completing modules on functions, loops, dictionaries, APIs and more.

STEM@Oxford | Generating Genius

January 2023 - June 2024

- Engaged in intensive workshops to strengthen problem-solving, critical thinking, and teamwork skills, preparing for competitive applications.
- Collaborated on group problem-solving activities under time constraints, developing resilience and strategic thinking valuable for fast-paced environments.

Graphic Design

2016 - Present

- Designed branding and visual identities for my tutoring business, emphasising user-centred design and a keen eye for detail and proficiency in learning software
